USA INSCOM Regulation
No. 10-50

14 March 1979

**Organization and Functions
902D MILITARY INTELLIGENCE GROUP**

1. Purpose. This regulation sets forth the mission, functions, and command relationships of the 902d Military Intelligence (MI) Group, Fort Meade, Maryland (UIC: WBU6AA).

2. Mission. The mission of the 902d MI Group is to provide counterintelligence (CI), signal security (SIGSEC) and multidisciplinary operation security (OPSEC) support to the US Army and designated DOD activities in CONUS, Alaska and Puerto Rico or as otherwise directed by the CG, USA INSCOM; provide specialized courses of instruction in support of the TRADOC school system; provide dedicated CI support to the Defense Nuclear Agency and DOD activities within the Pentagon Reservation; and support other government agencies as directed by the CG, USA INSCOM.

3. Functions. *a.* Perform evaluations of US Army and designated DOD agencies' OPSEC problems and recommend solutions through the USA INSCOM/902d MI Group OPSEC support program.

b. Conduct CI investigations as directed in accordance with AR 380-13, AR 381-20, FM 30-17, FM 30-17A, Executive Order 12036, and USA INSCOM directives to prevent, detect, and neutralize acts of espionage, sabotage, sedition, subversion, and treason directed against the US Army within the area of operations.

c. Establish and maintain liaison with local, state, and federal investigative, law enforcement, and intelligence organizations to fulfill mission requirements, and comply with the requirements of the Delimitations Agreement of 1949.

d. Conduct USA INSCOM-validated CI technical and nontechnical surveys and inspections, penetration inspections, and provide advice, assistance and training, in support of DOD and USA INSCOM Security Assistance Programs.

e. Conduct USA INSCOM-validated polygraph support.

f. Provide technical training in Technical Surveillance Countermeasures (TSCM), security container inspection, Defense Against Methods of Entry (DAME), investigative photography and polygraph techniques.

g. Provide recommendations for the awarding of an additional skill identifier to US Army personnel under the USA INSCOM Technical Surveillance Countermeasures and Polygraph Certification Programs.

h. Prepare and disseminate OPSEC threat material to supported commands and present OPSEC threat briefings to HQDA, major Army commands, and other activities/agencies as designated by the CG, USA INSCOM.

i. Assist Army commanders in developing and evaluating SIGSEC policies, plans, operating procedures, training programs, and review to insure the adequacy of SIGSEC considerations and adherence to established SIGSEC policy.

j. Provide input to the semiannual report on the US Army's SIGSEC posture and SIGSEC Management Information Systems.

k. Review plans for new construction of Army facilities designed to electrically process classified information to assure adequate protection against compromising emanations.

l. Provide SIGSEC (less TEMPEST) support to Army Reserve Components as assets permit.

m. Approve Army cryptofacilities before establishment, alteration, expansion, or relocation and inspect these cryptofacilities as required by DOD Directive 3025.13.

n. Review cryptonets to insure consistency with sound communications security (COMSEC) principles. Evaluate reports of physical or crypto security violations.

o. Monitor telecommunications of supported Army elements, perform analysis to determine the effectiveness of SIGSEC applications, and report the results with recommendations for improvements if needed.

p. Conduct MI applicant interviews and the interview portion of the MILPERCEN Personnel Security Screening Program at designated locations.

q. Provide VIP augmentation support to the US Secret Service in accordance with DOD Directive 3025.14.

r. Provide support to the Alternate Joint Communications Center (AJCC) in accordance with DOD Directive 5210.64.
